

Something new to recycle. Your old roof.*

Your contractor has taken the Preferred Contractor Shingle Recycling Pledge.

Each year, up to 10 million tons of recyclable shingles are removed from the roofs of U.S. homes and buildings.

But when you choose an Owens Corning™ Preferred Contractor who has taken the Preferred Contractor Shingle Recycling Pledge, you get this commitment: Your torn-off shingles will be recycled.

Owens Corning Roofing & Asphalt Has the Sustainable Solution.

Owens Corning Roofing & Asphalt, LLC, was the first roofing manufacturer to help create a process that increases shingle recycling and material reuse across the country. It's the perfect example of a 360-degree approach to sustainability. Where attention is given to end of life of shingles along with raw materials and manufacturing.

Did you know? Recycling your roof is like recycling more than 100% of a year's worth of household waste.** So choose an Owens Corning™ Preferred Contractor who recycles shingles. Together, we can make the world a cleaner place.

ECO FACT:

20% of the shingles torn off a roof is made up of valuable petroleum-based asphalt. If you filled trucks with all of that asphalt each year, the line of trucks would stretch from Tallahassee, FL, to Indianapolis, IN! All that asphalt could potentially be reused.

Preferred Contractor Shingle Recycling Pledge
Owens Corning Roofing & Asphalt, LLC

Register your recycled roof—for a gift you can use over and over again.

We'd like to say "thanks" for caring about the environment. So when you register your recycled roofing shingles, you'll get a certificate and free reusable tote bag. Simply fill out this form and mail it back. Or, you can register online at <http://roofing.owenscorning.com/recycling>.
