Thank you for your recent purchase of Owens Corning WeatherLock® Metal Engineered for Metal and Tile waterproofing underlayment. We believe we manufacture the highest quality and most attractive roofing products and waterproofing underlayment available anywhere, and that is why we stand behind them with one of the best warranties in the industry. We have attempted to write this warranty in clear, plain-English terms, including the limitations and restrictions, so you will fully understand the warranty we are making to you. However, if anything in this warranty is not clear to you, please call us at 1-800-ROOFING. Or visit our Web site at www.owenscorning.com.

Who Is Covered

If you live in the United States or Canada and you are the original consumer purchaser (i.e., the homeowner, not the installer or contractor) of the WeatherLock Metal and Tile waterproofing underlayment, you are entitled to the benefits of this warranty.

Transferability of This Warranty

This warranty is personal to you and may not be transferred to any subsequent purchaser of your home.

How Long Are You Covered

This warranty remains in effect for a period of twenty (20) years following installation.

What Is Covered

We warrant that this roofing product will be free from any manufacturing defects that materially affect its performance on your roof.

What Is Not Covered

Damage to the product due to any cause not expressly covered herein. After our WeatherLock Metal underlayment product leaves the manufacturing facility, it is subjected to conditions and handling beyond our control that could affect its performance. This warranty does not cover any problems with non-defective WeatherLock Metal underlayment product caused by conditions or handling beyond our control. Some examples of conditions not covered by this warranty include:

1. Acts of God, such as hail storms;
2. Foot traffic on your roof or damage caused by objects (such as tree branches) falling on your roof or by vandalism;
3. Improper or faulty installation (installation must be in accordance with our latest written installation instructions);
4. Metal work or other materials not furnished by Owens Corning and used in the roofing system resulting in leaks;

5. Damage by any chemical condition not disclosed to Owens Corning, or traffic or storage of materials or infiltration of condensation or moisture in, through or around the walls, coping, building structure of the underlying or surrounding areas;
6. Inadequate attic ventilation or lack of positive, proper or adequate roof drainage. If you have any questions about appropriate ventilation requirements, please contact us at 1-800-ROOFING;
7. Settlement of the structure of your home, or buckling or cracking of the deck or substrate over which your WeatherLock Metal waterproofing underlayment is installed;
8. Damage caused by alterations or repairs made after completion of application, including structural changes, equipment installation, painting or the application of cleaning solutions, coatings, or other modifications, or installation of objects (including, without limitation, machines, structures, fixtures, or utilities); and
9. Any costs that you incur which are not authorized in advance by Owens Corning.

What Is Your Remedy

If at any time during the twenty (20) year warranty period WeatherLock Metal underlayment allows leaking due to a manufacturing defect, Owens Corning will contribute to the cost of either repairing or replacing your underlayment, as its sole option and as its sole obligation to you, subject to the following limitations:

During the first five (5) years following installation, our liability under this warranty shall be limited, at our sole discretion, to repairing or replacement of your underlayment material or a refund equal to the cost of replacement of WeatherLock Metal underlayment, excluding cost of labor.

During years six (6) through twenty (20) following installation, our liability shall be limited, at our sole discretion, to repairing or replacement of your underlayment material or a refund equal to the cost of replacement of WeatherLock Metal underlayment, excluding the cost of labor, subject to proration as calculated by the formula set forth below.

The proration formula takes into account the number of months of use you have enjoyed through the date of your claim and reduces a refund for cost of replacement accordingly. That is, we will prorate the amount of your payment through the date of your claim. WeatherLock Metal has a 20-year warranty (240 months). Thus, if you make a claim in the last month of the 10th year of the warranty (i.e., the 120th month), the warranty refund amount would equal 120/240ths of the cost of replacement WeatherLock Metal material, excluding the cost of labor.

YOUR REMEDY FOR DEFECTIVE WEATHERLOCK METAL WATERPROOFING UNDERLAYMENT IS FULLY DESCRIBED IN THE PRECEDING SECTION ENTITLED "WHAT IS YOUR REMEDY."
